

Opportunities at Loadmac

AREA SALES MANAGER (ref. 0801MH)

Responsible for and involvement in all aspects of LOADMAC's commercial activity within their designated Area.

Reporting to the Managing Director, and working from the main UK premises (currently Rugby, Warwickshire), this is a technical sales and customer relationship position. It is likely to necessitate occasional nights away from home and some extended hours of work. The position requires not only a high degree of selling competence (or the potential to be competent in a sales role), but also the ability to confidently demonstrate LOADMAC products.

SERVICE ENGINEER (ref. 0801MR)

Reporting to the Service & Parts Manager, and working from the main UK premises (currently Rugby, Warwickshire). The role requires a good understanding of diesel/hydraulic equipment servicing, fault diagnosis and repair. Experience of HGV electrics is also desirable. The position will involve travel within the UK, attendance to customer and suppliers premises, and occasional nights away from home.

How to apply:

Please send an email stating which role you are interested in, along with your contact details and a brief summary of your skills, knowledge and aspirations to:
